

2022-23

Cleanliness Drive at Silpi Khetra 16 September 2022

Introduction:

As suggested by the Principal, a special cleanliness drive was organized by the NSS unit, Bikali College at Silpi Khetra, Dhupdhara where 11 nos of silpi (artist) died in a car accident. To honour the silpis (artists), NSS unit of this college organized a programme.

Dr. Abdul Haque, President, Milon Sangha, Dhupdhara inaugurated the programme where 44 nos of NSS Volunteers, teachers, guests and journalists were present. Dr. Haque delivered a lecture about the accident of the silpis and also importance of cleanliness. Our Principal, Dr. Monoj Gogoi was present in the programme and delivered a lecture about importance of cleanliness and also generated interest to maintain the Silpi Khetra. The NSS programme officer lead the NSS volunteers to make the programme a grand success.

VISION:

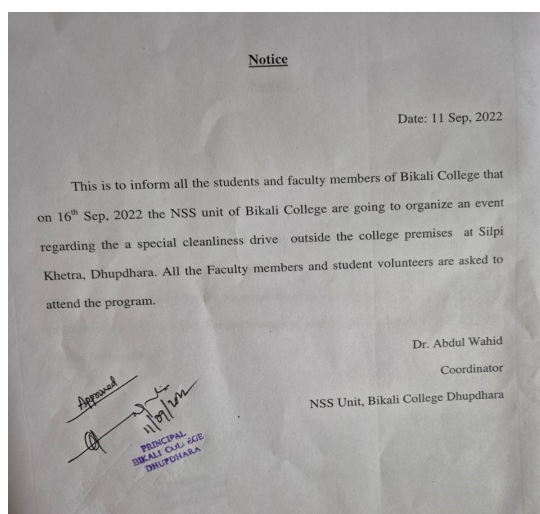

- The main vision of this cleanliness drive was to honor their memory by maintaining a respectful and tidy final resting place of the silpis.
- To aware the students about their valuable contributions for the cultural development of the society.

MISSION:

- The mission was to mobilize volunteers, provide necessary tools and resources and coordinate efforts to clean up the Silpi Khetra.

OUTCOME:

- A well-kept Silpi khetra, free of debris and overgrowth providing a serene environment for visitors to pay their respects to the silpis.
- It will also foster a sense of community pride and involvement in preserving local history and cultural heritage.

Date: 22/02/2022

NOTICE

This is to inform all the faculty members and students of Bikali College and local community people near Bikali College that the Extension Cell and NSS Unit of Bikali College are going to an organised medical camp on the 24th of February 2022 with the college campus. This camp will provide essential medical services and consultations. The program will start at 9.30 Am.

Therefore, you all are requested to come and join the program.

Thank you

Dr. Abdul Wahid

EXTENSION PROGRAMME

CONDUCTED BY

DEPARTMENT OF PHYSICS

INTRODUCTION:

An extension programme is a programme which is designed to help and encourage young children of the community. An outreach programme is conducted by **Department of Physics, Bikali College, Dhupdhara** on **26 May 2022**. The outreach programme is on “**Basic Applied Physics**”.

VISION:

To empower people through teaching and demonstration.

MISSION:

To integrate and educate rural students through teaching and demonstration, raising awareness about the scientific ideas.

OBJECTIVES:

1. To raise awareness about Science in Everyday life.
2. To inculcate young minds with science and application of science.
3. To raise awareness among them how to use science as a solution to common problems.
4. To teach them how to learn Science.

IMPLEMENTATION:

Total number of faculty participants: 3

Total number students participated: 8

Total number of students : 30

TOPIC: OUTREACH PROGRAMME ON “Basic Applied Science”:

An outreach programme was organized by the Department of Physics at Amguri ME School (Dhupdhara) on 26 May 2022. The main objective was to educate students what is Science. We informed them about the various things related to science. We also informed them about the light and the seven colors it consist of. The total participants were 30 in number (it includes students from class 6-8). Many equipment of the lab had been used like prism, glass slab, magnetic compass, magnet etc. We demonstrated different types of experiments to make them understand about the basic principles of science. At the last they were asked to repeat the same experiment with their own hands. The programme was ended with a speech of the headmaster of the school

OUTCOME AND IMPACT:

As the outcome of the programme, it can be said that the students are now well aware of science and how to do science and use it efficiently. Now, they can observe some detail of a phenomenon.

Challenges

They are no such challenges occurred during the programme. The participants showed us their keen interest in the programme.

Some Photos of the Programme:

Donation during Assam Flood

Donation to Robin Hood Army,NGO

Apart from imparting knowledge, Bikali College has always extended helping hand at the time of crisis and disaster. Assam, being a flood prone area, large portion of land is inundated every year. In the year 2022 the college authority was approached by Robin Hood Army, a volunteer based zero funds organization that works and serves the less fortunate people. Accordingly, the college authority initiated a collection drive involving the faculty members.

Objective:

The main objectives of the drive were

- To collect food, clothing and other essential items
- To make students aware of the community support during disaster
- To initiate the college community to work for the victims and support their cause

Collection:

- About 50 kilos of rice
- 10 kilos of dal
- 10 liters of mustard oil
- Salt
- Flattened rice
- Candles
- Sanitary products

Many student volunteers and staff members dedicated time and effort for the cause. On Jun 28, 2022, few faculty members handed over the collected goods in their office at Guwahati. The members of the NGO were overwhelmed by the donation and help extended by the college. They said that these items would provide immediate relief to numerous families affected by the floods. The whole exercise also fostered a sense of unity and social responsibility within the college community.
