Professor, Department of Botany, Gauhati University

&

Director, IQAC, Gauhati University (January 2020)

09.04.2025.

Free Registration

E-certificates will be given to all participants

About the Workshop:

Outcome-Based Education (OBE) is a student-centred approach that focuses on achieving specific learning outcomes. The significance of OBE in the current education system cannot be overemphasised. It plays a crucial role in modern education due to its emphasis on measurable skills, knowledge, and competencies. This One-Day Workshop is being conducted jointly by IQAC, Bikali College and Research and Development Cell, Bikali College, in order to bring much-needed clarity on learning outcomes that students need to be aware of after completion of their respective programmes or courses. It will help instructors align teaching methods, assessments, and curricula with desired outcomes. The workshop aims to enlighten participants on Program Specific Outcomes (PSOs), Program Outcomes (POs), Course Outcomes (COs), as prescribed by Gauhati University and their alignment. The workshop will also include discussions on tools and techniques to measure student performance and attainment of outcomes, as well as hands-on training on mapping course content with desired learning outcomes for effective teaching and assessment. The workshop will also address the role of OBE in meeting accreditation requirements of bodies such as NAAC, NIRF etc.

Who can attend?

Faculty members, Research Scholars, Students

Key Takeaways:

- Knowledge of the OBE framework (PO, CO and PSO)
- Importance of alignment of curriculum, teaching methods and assessment with learning outcomes
- Graduate Attributes
- Role of Bloom's taxonomy in structuring outcomes
- Innovative pedagogies and assessment for continuous improvement of learner
- Strategies for faculty members to transition from traditional to OBE
- Role of OBE in Institutional Accreditation

Workshop Schedule (Date: 09.04.2025)

Time	Activity
